53 Meet Your PBH Team
The Produce for Better Health Foundation (PBH), a 501(c)3, is the only national non-profit organization committed to helping people live happier, healthier lives by eating more fruits and vegetables in all their glorious forms every day.
OUR PASSION

Research shows, rather than a prescriptive recommendation to eat a certain amount of fruits and vegetables each day, consumers (particularly Gen Z and Millennials) want actionable, realistic and FUN approaches that make eating fruits and vegetables easy, helping them feel confident, happy and healthy.

That’s where PBH’s Have A Plant™ Movement comes in. It’s a way to tap into the emotional connection consumers have to the fruit and vegetable eating experience while inspiring long-term, sustainable behavior change. And it does so with a no-nonsense approach that’s simple, understandable, and, importantly for this audience, non-prescriptive.
JOIN THE MOVEMENT

Through integrated communication tools, including logo applications, digital platforms, thought leadership and ambassador relationships, PBH’s transformative Have A Plant™ Movement will inspire people with compelling reasons to believe in the powerful role fruits and vegetables can play to create happy, healthy and active lives.

To join the movement, download the Have A Plant™ Brand Guidelines.
We believe in the power of collaboration. We welcome the opportunity to collaborate with fruit and vegetable entities, as well as others who seek to improve fruit and vegetable consumption.

PBH is your partner to transform how people enhance their lifestyles with fruit and vegetables.
MEMBER BENEFITS

Contributing to PBH goes beyond philanthropy, providing unique access to powerful partnerships and exclusive sponsorships, with the ability to tailor each to accomplish your goals. PBH members help guide the organization’s programs and platforms, which ensures our efforts complement your strategic goals and business needs.

With their positioning near the end of the produce supply chain, retailers have significant impact along the consumer path-to-purchase.

Working together, PBH and retail partners can influence shoppers to increase purchase and consumption of fruits and vegetables, and live happier, healthier lives.
PBH’s Education2Action Retail Dietitian Event provides an intimate and collaborative networking opportunity to explore and create omni-channel retail partnerships — in-store, socially and virtually — with 20-25 influential retail dietitians from across North America.

Hosted alongside Produce Marketing Association’s (PMA) annual Fresh Summit Convention & Expo, retail dietitians gain actionable education tailored to their unique in-store role. Exclusive networking and pre-scheduled booth visits on the PMA expo floor generate excitement and inspiration for brands and promotions well beyond the event. Effortlessly maximize your PMA Fresh Summit investment with meaningful connections and valuable engagement.

Powerful Produce Pairings Retail Activations
This in-store retail activation program creates delicious, new fruit and vegetable experiences for consumers where they plan and make food decisions — as well as innovative partnerships for the industry to work together to boost consumption — and sales!

PBH starts with fresh fruits and vegetables and pairs them with other nutrient-rich products — including other produce items, whole grains, seeds and nuts, low-fat dairy and/or lean protein — to create meal and snack solution promotions for retail shoppers.

The promotions come to life by combining various shopper marketing tactics and retail dietitian activations including cross-merchandising, digital coupons, in-store displays, media segments, live RD demonstrations, video development and social media contests and posts.

This program yields long-lasting results with direct-to-shopper education by trusted, credentialed nutrition professionals. Each activation conducted has seen significant sales and volume lifts for both produce and paired products, while reaching tens of thousands of consumers through social media live video segments, “hands and pans” videos, and social posts.
